Version 3.4

New version is now available:

- A new **Reatomize** version **Gamma** is now available.
    - This version gives access to some Pokémon new moves and even more than 3 abilities.

TM and Tutor Compatibility:

TM and Tutor Compatibility is coming on a patch at a later date.

New Pokémon added:

Lilligant

Galarian Lilligant

- A **Normal type** variant of the Pokémon **Lilligant**.
- Given by Serra to the player after defeating her.
- Credits for the ability's code goes fully to @**tguilerrr** on discord.

Cosmic Lilligant

- Is now **locked post E4**.
    - You must defeat the Elite 4 and then evolve Cosmic Petilil in Citae Astra top platform.
    - Attempting to evolve Cosmic Petilil earlier will result in it reverting to its Unovan form.
        - You all wanted this.

Castform

- Buffed stats when transformed: 70,70,80,110,110,80.
- New moves through level up:

General QoL improvements:

Starter selection:

- When choosing your starter, the game now prompts you with all the possible forms you can choose from.

Press enter/space in Pokémon panel:

- If the Pokémon stats panel is currently showing the Ability box at the bottom press space for opening a new pop-up box.
    - If your Pokémon has a **traited** ability it will be shown instead!
        - Read between the lines, events are a thing! ;)

EVs and IVs presets:

- It is now possible to set presets for faster EVs and IVs management.
    - We thank you @**throwingtorre** as usual!

New QoL items have been added:

Honey Attractor

- Acts as the item **Honey** or the move **Sweet Scent**, but is a key item and can be used indefinitely.
- Can also be registered like a bicycle or super rod.
- You obtain it by trading a sunkern to a gentleman in Rhohdhohchrhinheh Jungleh.

Infinity Repel

- Acts as the item Repel, but is a key item and lasts for 999,999 steps.
- Can be registered albeit it is better to just activate it once and forget.
    - Utilize again to disable its effect, or the effects of any repel.
    - Works with the **Honey Attractor**.
- You obtain it by returning some furniture, no matter if you got the EXP All already or not.

Final tag team fight has been changed:

- You will fight Lin with a different team with Cyrus as your party member.
- You are going to pair up with Cyrus against Lin only under certain conditions.
    - You must have enough Friendship Points.
    - You must accept Cyrus' request to pair with you for the final fight.
        - Saying yes gives +1 to Cyrus, -1 to Anna/Shade and +1 to Lin.
        - Saying no gives -1 to Cyrus and +1 to the terminal.
    - You must be on Anna's Route.
        - You will be then prompted into Lin's Route.

Table of Cyrus encounters:

- First encounter on Route 2:
  - To gain **+1 Cyrus** you must lose this battle, somehow.
  - Winning instead will give you **-1 Cyrus**.
    - We are at +1 or -1 here.

  - Say no to Cyrus wanting to join your team:
  - -1 Cyrus +1 Terminal.
    - You should be at [5; -4] –{4} now.

Entities:

- They come in colors, each one has a theme:
  - Red is **Doubles**.
  - Green is **Status**.
  - Yellow is **???**
  - Blue is **Gimmicks**.
- Their teams are composed of more than 6 Pokémon.
- These enemies must be avoided if possible.

Versions of Reatomized:

Base Reatomized:

It's **Reatomized**! You have access to **All Gen** Pokémon, new megas, new eeveelutions, all the Pokémon from **Uranium** and all the Pokémon from **Infinity**. Some special ones are also present, like new variants added by the Multicore Mod, along with a new type added: the Cosmic type!

- **Reatomized** supports more than 3 abilities for a single Pokémon, up to 9!

Reatomized EX:

This version of **Reatomized** contains all the previously mentioned things, and on top of that we are also adding the new Pokémon to the pre-existing Trainers of Pokémon Reborn!

Reatomized Gamma:

This version of **Reatomized** contains everything mentioned thus far, but we are also adding the following things:

- The Cosmic type is added to some pre-existing Pokémon and moves.
- Gelius' move changes and improvements are added.

This changes the movepools of pre-existing Pokémon, along with giving more abilities.

Known issues:

- Water Veil: UNFIXED
  - Not on the guide regarding ability adjustments.
- Toxic Debris: UNFIXED
  - Seems to activate with Psywave.
- Meteor Mash: UNFIXED
  - It's supposed to be dual type with Steel and Cosmic.
    - This has been fixed.
  - The AI is unable to understand it is also partially Cosmic.
- Galarian Yamask: UNKNOWN
  - Guide never explains how to get Runerigus (Lv34 at night).
- Paldean Wooper/Rebornian Treecko line/Galarian Lilligant: UNFIXED
  - Icons are not available.
- Terapagos: UNKNOWN
  - Doesn't give the Mega prompt when having Tera Starstorm and having the Mega-Z Ring.
- Happy Hour: UNFIXED
  - Move generates an error, skipping a turn entirely.
